

# SCLERODERMA SUPPORT GROUP

**YOU ARE NOT ALONE**

## SCLERODERMA FOUNDATION

SUPPORT · EDUCATION · RESEARCH

### TRI-STATE CHAPTER

#### OUR MISSION

##### Support

Provide education and emotional support to people with scleroderma and their families.

##### Research

Stimulate and support research designed to identify the cause and cure for scleroderma, as well as improve methods of treatment.

##### Education

Enhance the public's awareness of this disease.

#### WHAT IS SCLERODERMA?

Literally, scleroderma means "hard skin" yet it's better characterized as the hardening of the body's connective tissues through an overproduction of collagen. As collagen builds, fibrosis hardens tissues. It is chronic and characterized as an autoimmune disease.

About 300,000 persons in the United States are affected and there are millions of patients world-wide.

Women are more likely than men to have scleroderma by a ratio of about 4:1.

The term scleroderma is an umbrella under which many specific types of the disease fall. Each type has its own course and treatment options to help patients live longer, better quality lives, until a cure is found.

## COOPERSTOWN, NEW YORK

### CONTACT US

**Leader:** Rebecca Davidson-Nielson  
(607) 547-5099

**Asst.-Leader:** Marilyn Waterhouse
