Waiver: In consideration of being permitted to participate in Stepping Out to Cure Scleroderma. I hereby, for myself, my heirs and personal representatives assume any and all risks which might be associated with the event. I further waive, release, discharge and covenant not to sue the Scleroderma Foundation, any chapter, support group, officers, employees, sponsors, organizers, volunteers or other representatives or their successors and assigns for any and all injuries or damages of any kind whatsoever suffered as a result of taking part in the event and any related activities. In consideration of accepting this entry, I, the undersigned, intending to be legally bound hereby, for myself, my heirs, executors and administrator, waive and release any and all rights and claims for losses and damages I may have against the Scleroderma Foundation, walk directors, their officers, directors, members and volunteers, any and all sponsors including other parties and their representative successors, and assigns for any and all injuries suffered by me in said event. I attest that I am physically fit, and I am voluntarily entering at my own risk. My physical condition has been verified by a licensed medical doctor. Further, I hereby grant full permission to any and all foregoing to use photographs, video- tapes, motion pictures, recordings or any other record of this event for any purpose whatsoever.

Scleroderma is a chronic, progressive autoimmune disease, that can cause thickening & tightening of the skin, as well as serious damage to internal organs including lungs, heart, kidneys, esophagus, & gastrointestinal tract. An estimated 300,000 persons in the U.S. have scleroderma. The exact cause or causes of scleroderma are unknown. Although medications can sometimes help, there is no cure **yet**. ALL PROCEEDS GO TO FURTHER OUR MISSION OF SUPPORT, EDUCATION AND RESEARCH FOR SCLERODERMA!

Join us on August 7!
